Operational Definitions

Figures on the percentage refer to % of land-based non-institutional population aged 15-24 studying full-time course and with educational attainment (highest level attained) at tertiary level.

Footnote

Figures are collected from the Census and Statistics Department.

From 2001 onwards, figures are revised and compiled based on data collected in the General Household Survey in January to December each year as well as the mid-year population estimates by District Council district compiled jointly by the Census and Statistics Department and an inter-departmental Working Group on Population Distribution Projections.
